

Year 4: Craft and design: Fabrics of nature

Key Artists:

Ruth Daniels

Senaka Senanayake

William Morris

Megan Carter

Mood board:

KEY VOCABULARY

BATIK: A technique to create patterns on fabric.

COLOUR PALETTE: A range of colours grouped together to look nice.

CRAFT: Something creative and useful.

DESIGN: A decorative pattern or drawing of what something might look like.

INDUSTRY: Companies and activities that design and make products, sometimes in a factory.

MOOD BOARD: A collection of images and colours showing a project theme.

PATTERN: A design in which shapes, colours or lines are repeated.

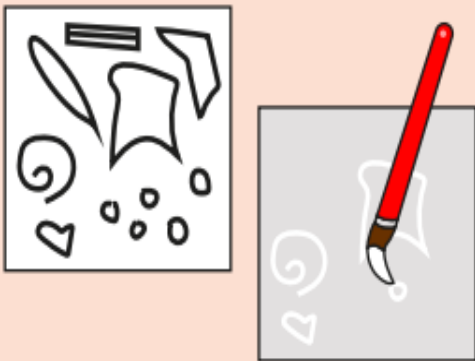

REPEAT: When the same things occurs more than once.

THEME: Similar ideas that work together as a group.

Glue batik:

Step 1

Paint the design onto fabric with PVA glue. Then allow it to dry completely.

Step 2

Use acrylic paints to add colour and patterns. Cover the entire piece of fabric, painting over and around the dry glue. Allow to dry.

Step 3

Wash out the glue. As it dissolves it will feel slimy. Keep going until you can't feel any more glue. Lay your fabric flat to dry.
