CONTACT: Hester Challis 07976 510728

Throughout the term, your child will have the chance to explore a wide variety of arts and crafts materials and techniques. Examples of projects include mixed media collage, clay modelling and painting, textile crafts, mosaics, weaving as well as traditional painting and drawing. There's something for everyone! Some projects will be completed in just one session, while others may take a few weeks to complete, allowing for a deeper dive into the creative process.

Whether they're refining existing skills or discovering new ones, each participant will have fun, build confidence and express their individual personality in everything they create!
